HEART & LUNG

THE JOURNAL OF CRITICAL CARE

VOLUME 1
JANUARY-DECEMBER 1972

THE C. V. MOSBY COMPANY *publisher*

Official publication of
American Association of Critical-Care Nurses

EDITORS

Kathleen G. Andreoli, R.N.
1919 Seventh Avenue South
Birmingham, Ala. 35233

Alfred Soffer, M.D.
112 E. Chestnut Street
Chicago, Illinois 60611

Sylvan Lee Weinberg, M.D.
33 W. First Street
Dayton, Ohio 45402

Subject index*

A

Abdominal catastrophe, 679
  surgery, congestive heart failure following, 835
American Association of Critical-Care Nurses, AACN officers, directors, and chapters, 133, 287, 428, 564, 698, 848
  news and announcements, 16, 137, 154, 323, 454, 589, 733
  office of the executive director, 453, 589, 732
  president's message, 312, 450, 586, 730
Aneurysm, aortic, thoracic, dissecting, 549
Anticoagulant therapy in acute myocardial infarction, 639
Aortic aneurysm, thoracic, dissecting, 549
Arrhythmias, cardiac, how to approach, 523
  cardiac, use of bretylium tosylate in the management of, 269
  in coronary care, analysis of, a plea for precision, 51
  supraventricular, following acute myocardial infarction, management of, 412
Arterial pulses and sounds, clinical utility of, 776
  sounds and pulses, clinical utility of, 776
Asthma, chest physician's perspective on, 611
A-V block due to acute trifascicular disease, 672
  junctional rhythms, reassessment of, 626

B

Bigeminy, rule of, 128
Block, intraventricular trifascicular, 216
Blood vessels, to avoid sudden death, 751
Books and audio-visual material, reviews of, 427, 563, 693, 842, 846
Brethylium tosylate, use of, in the management of cardiac arrhythmias, 269
Bronchodilators, secondary to the propellant or medication, are cardiovascular deaths caused by, 541
Bundle branch block, hemiblock and, a nursing approach, 36

C

Cardiac and pulmonary failure, management of combined, 398
Cardiogenic shock, evaluation and management, drug therapy, 663
  evalution and management of, approach to the patient, 402
Cardiopulmonary medicine, observations on advances in, 190
  resuscitation in seven community hospitals, 810
Chest physical diagnosis for nurses and respiratory therapists, 200
Congestive heart failure, acute trifascicular block and, 825
  following abdominal surgery, 835
Community hospital, critical care and, 688
Coronary artery disease, life cycle of, 63
  insufficiency, surgical treatment of ventricular failure due to, 99

Coronary—Cont'd
  care, analysis of arrhythmias in, a plea for precision, 51
    concepts of, new again from Kansas City, 473
    nurse, educational needs of, 254
    progressive, 240
    unit, effectiveness of, in reducing mortality of acute electroshock hazards in the, 481
      excellence in nursing in, 785
      hemodynamic monitoring in, 374
      myocardial infarction, 487
  heart disease, pathogenesis of, observations on, 68
  risk implications for prevention and public health, contributors to, the Framingham study, 797
Critical care, a potential by-product of, 337

D

Death, sudden, to avoid, 751
Devices, emergency ventilation, hand-operated, 277
Digitalis, use and abuse of, in acute myocardial infarction, 762
Digoxin and saccharin (letter to the editor), 556
Docent team concept, critical-care nursing in, 490
Drug therapy, evaluation and management of cardiogenic shock, 663

E

Editors, letters to, 421, 556, 840, 842
Electrocardiographic changes in acute pulmonary embolism, 831
Electrophysiology and diagnosis of heart rhythms, some basic principles governing the, 45
Electroshock hazards in the coronary-care unit, 481
Embolism, pulmonary, acute, electrocardiographic changes in, 831
  pulmonary, recognition and management of, 650
Emergency ventilation devices, hand-operated, 277

F

Fibrillation, what protects the heart from standstill and, 344
Framingham study, contributors to coronary risk implications for prevention and public health, 797

H

HEART AND LUNG—a journal is born, 31
  a journal primarily directed to the education of nurses but useful for everyone involved in the care of the cardiac patient, 34
Heart, respiratory failure and the, 84
  rhythms, some basic principles governing the electrophysiology and diagnosis of, 45
  what protects from standstill and fibrillation, 344
Hemiblock and bundle branch block, a nursing approach, 36
Hemodynamic monitoring in a coronary-care unit, 374
Hospital, community, cardiopulmonary resuscitation in seven, 810
  modern, respiratory care in the, 193

*January-February, pp. 1-140; March-April, pp. 141-294; May-June, pp. 295-432; July-August, pp. 433-568; September-October, pp. 569-712; November-December, pp. 713-868.

Hyperlipoproteinemias, recognition and management of, 508
Hypertension, prevention at the community level of mortality and morbidity associated with, 384
Hypothermia, electrocardiographic manifestations of, 233

I

Infarction, myocardial, 543
acute, effectiveness of coronary-care units in reducing the mortality of, 487
Intensive and non-intensive nursing, psychologic response to situational stress in, 793
care nursing, stress and, 753
unit (ICU), computer-based monitoring in, implications for nursing education, 90
impact of respiratory, on survival of patients with acute respiratory failure, 475
what are we talking about, 187
Intermediate care after myocardial infarction, 818
Intraventricular trifascicular block, 216

M

Management, nursing, of the acutely ill respiratory patient, 207
Manikin, breathing, facilitates teaching of respiratory care, 621
Morbidity, mortality, associated with hypertension, prevention at the community level of, 384
Mortality and morbidity associated with hypertension, prevention at the community level of, 384
of acute myocardial infarction, effectiveness of coronary-care units in reducing, 487
Muscle, heart, clinical applications of basic physiology and cellular anatomy, 494
Myocardial infarction, 263, 543
acute anterolateral, with anterolateral peri-infarction block, 409
anticoagulant therapy in, 639
effectiveness of coronary-care units in reducing mortality of, 487
factors affecting prognosis in, 74
role of transvenous pacing in, 56
true posterior, electrocardiographic manifestations of, 658
use and abuse of digitalis in, 762
intermediate care after, 818
management of supraventricular arrhythmias following, 412
observations on emergency surgery for complications of, 340
potential role of the subendocardium in the pathogenesis of, 356

N

News of critical-care nursing and medicine, 137
Nurse as an author, 607
Nursing education, implications for, computer-based monitoring in an intensive-care (ICU) unit, 90

P

Pacemaker, wandering, concept of, 519
and clinics, exciting challenges in the future of, 685
implanted cardiac, long-term monitoring of patients with, 227
in 1972, a programmed instruction, 362
Pathogenesis of coronary heart disease, observations on, 68
myocardial infarction, potential role of the subendocardium in the, 356
Patient, respiratory, nursing management of acutely ill, 207
Peri-infarction block, anterolateral, acute anterolateral myocardial infarction with, 409
Physical diagnosis, chest, for nurses and respiratory therapists, 200
Prevention and public health, contributors to coronary risk implications for, the Framingham study, 797
Public health, contributors to coronary risk implications for prevention and, the Framingham study, 797
Pulmonary embolic disease, recognition and management of, 652
embolism, acute, electrocardiographic changes in, 831
recognition and management of, 650
failure, management of combined cardiac and, 398

Q

Quinidine, use and abuse of, 755

R

Respiratory care, breathing manikin facilitates teaching of, 621
in the modern hospital, 193
unit, 378
failure and the heart, 84
impact of respiratory intensive-care unit on survival of patients with acute, 475
team care in, 192
therapists, chest physical diagnosis for nurses and, 200
Resuscitation, cardiopulmonary, in seven community hospitals, 810

S

Saccharin and digoxin (letter to the editor), 556
Shock, cardiogenic, evaluation and management of, approach to the patient, 402
Sinus cycle, ventricular interpolation within effective, 661
Stress and intensive-care nursing, 753
situational, in intensive and nonintensive nursing, psychologic response to, 793
Subendocardium, potential role of the, in the pathogenesis of myocardial infarction, 356
Surgery, abdominal, congestive heart failure following, 835
emergency, for complications of myocardial infarction, observations on, 340

T

Therapists, respiratory, chest physical diagnosis for nurses and, 200
Transvenous pacing in acute myocardial infarction, the role of, 56
Trifascicular block, acute, and congestive heart failure, 825
disease, acute, A-V block due to, 672

V

Ventilation devices, emergency, hand-operated, 277
Ventricular failure due to coronary artery insufficiency, surgical treatment of, 99
interpolation within effective sinus cycle, 661

W

What hath a year wrought, 749
